Jember

Hello, I am Niko, a 4th semester student from the Information Systems Study Program, Faculty of Computer Science, University of Jember. I am a passionate and highly motivated individual in studying technology. My interest in technology runs deep, from programming, software development, artificial intelligence, big data, to cybersecurity. I feel compelled to continue to broaden my knowledge by learning new concepts and exploring the various potentials offered by the world of technology. Currently, I'm working on website development both in terms of front-end with frameworks like Tailwind and Bootstrap or back-end like Laravel. The website project I'm working on is called AgroRise. AgroRise is a website in the field of AgroIndustry
